

Correction

Re the article “Quality of care provided by general practitioners using or not using Division-based diabetes registers”, by Mark F Harris, Debbie Priddin, Warwick Ruscoe et al in the 2 September 2002 issue of the *Journal (Med J Aust 2002; 177: 250-252)*. In Box 3, the heading for columns 2 and 3 was incorrectly given as “Proportion of patients having at least one HbA_{1c} test”. The heading should be “Proportion of patients having more than one HbA_{1c} test”. □
