

Correction

Re “Multicentre research: negotiating the ethics approval obstacle course” a letter to the editor by Lynne M Roberts, Lucy Bowyer, Caroline S Homer and Mark A Brown in the 2 February issue of the Journal (*Med J Aust* 2004; 180: 139). There was an error in the Box summarising the requirements for gaining ethics approval.

The entry for “Time taken to gain approval” in the column headed “U” should read 4.5 months (*not* 42 months). □
