# Adopting best evidence in practice

The National Institute of Clinical Studies is Australia's national agency for improving healthcare by helping close important gaps between best available evidence and current clinical practice.

## Contents

### Translating evidence into practice

Heather Buchan, Jillian R Sewell, Melissa Sweet ..... S43

### Development of strategies to encourage adoption of best evidence into practice in Australia: workshop overview

Melissa Sweet ..... S45

### Gaps between best evidence and practice: causes for concern

Heather Buchan ..... S48

### Is evidence-based implementation of evidence-based care possible?

Jeremy M Grimshaw, Martin P Eccles ..... S50

### Selecting, presenting and delivering clinical guidelines: are there any “magic bullets”?

Martin P Eccles, Jeremy M Grimshaw ..... S52

### Diffusion of innovation theory for clinical change

Robert W Sanson-Fisher ..... S55

### What drives change? Barriers to and incentives for achieving evidence-based practice

Richard Grol, Michel Wensing ..... S57

### Changing healthcare organisations to change clinical performance

Jeffrey S Robinson, Deborah A Turnbull ..... S61

### Feedback of evidence into practice

Chris B Del Mar, Geoffrey K Mitchell ..... S63

### Adoption of evidence into practice: can change be sustainable?

Jill Cockburn ..... S66

### Solving the information overload problem: a letter from Canada

David A Davis, Ileana Ciurea, Tanya M Flanagan, Laure Perrier  
on behalf of the Ontario Guidelines Advisory Committee ..... S68

Workshop participants ..... S72

**Acknowledgements:** The National Institute of Clinical Studies acknowledges with gratitude the work of Melissa Sweet in capturing the details of the workshop “Development of strategies to encourage adoption of best evidence into practice in Australia” and of Dr Norman Swan in leading proceedings at this conference. The Institute would also like to thank the participants in the workshop and the contributing authors for this supplement.
