

## CORRECTIONS

Re: “**Management outcomes of patients with type 2 diabetes: targeting the 10-year absolute risk of coronary heart disease**”, by Tuck Y Yong, George Phillipov and Patrick J Phillips, in the 18 June issue of the Journal (*Med J Aust* 2007; 186: 622-624). There was an editing error introduced in the Results section of the Abstract of this article. *The first sentence should have read:*

**Results:** 42%, 61% and 43% of patients were receiving medication to treat hyperglycaemia, hypertension and hypercholesterolaemia, respectively; 46%, 29% and 15% of patients, respectively, had achieved the recommended RACGP target values for HbA<sub>1c</sub>, blood pressure, and total cholesterol; and 22% of patients were current smokers. □

---

Re: “**Research misconduct: can Australia learn from the UK’s stuttering system?**”, a letter to the Editor by Peter T Wilmshurst in the 18 June issue of the Journal (*Med J Aust* 2007; 186: 662-663).

In the editing of this letter, we incorrectly stated that the “Editor’s choice” column in the *British Medical Journal*, entitled *Corruption in medicine*,<sup>1</sup> was only published online and thus was no longer available, as it had been removed, to avoid litigation, from the online version (together with the article by Wilmshurst that it was linked to). However, the column was also published in the paper journal and is still available there (as is the article<sup>2</sup>).

1 Smith R. Corruption in medicine [Editor’s choice]. *BMJ* 2002; 325 (23 Nov).

2 Wilmshurst P. Institutional corruption in medicine. *BMJ* 2002; 325: 1232-1235. □
