Hla TK, Cannon JW, Bowen AC, Wyber R. Getting to grips with invasive group A streptococcal infection surveillance in Australia: are we experiencing an epidemic? *Med J Aust* 2023; 219 (6): 242-245. <https://doi.org/10.5694/mja2.52056>.

In this article, the final sentence under the heading “Inequitable epidemics” should read: “Although Indigenous status is not available in the publicly accessible National Notifiable Disease Surveillance System dataset, it is a core field and there is capacity for states and territories to report this information, to assess progress of this inequitable epidemic across Australia.” ■
